

**PROGRAM OF THE FANK SCIENCE FILMS DAYS
(27.11.2017 – 01.12.2017)**

Date, Time, Room	Film	School / Institute
27.11.2017 9.45, Room 140 (University Building No.3a)	<p>Film show <u>Bombshell: The Hedy Lamarr Story</u></p> <ul style="list-style-type: none"> • Director: Alexandra Dean • Country: USA • Year: 2017 • Length: 86 minutes <p>A starlet, diva and the most beautiful woman in the world. All these epithets describe a popular Hollywood actress of the 40's — Hedy Lamarr. This movie by Alexandra Dean adds another characteristic to this list — “an inventor”. The admirers of Ms. Lamarr did not even guess that besides her incredible beauty and charm the actress had an extraordinary mind.</p>	<p>School of Economics and Management</p> <p>Institute of Linguistics and International Communication</p> <p>Institute of Social Sciences and Humanities</p>
28.11.2017 9.45 Room 140 (University Building No.3a)	<p>Film show <u>Julian Barbour: Bottom's Dream</u></p> <ul style="list-style-type: none"> • Director: Karol Jalochowski • Country: Poland • Year: 2016 • Length: 45 minutes • Russian subtitles <p>Julian Barbour is an independent physicist, science historian, and author of many scientific papers. For over thirty years he has been trying to “cleanse” physics of irrelevant concepts and tools. One of such tools is time. Barbour believes that time is nothing but illusion. Of recent he has been elaborating a theory which might explain why and how we feel the flow of time.</p>	<p>School of Electrical Engineering and Computer Science</p> <p>Institute of Natural Sciences</p> <p>Polytechnic Institute</p>
29.11.17 9.45 Room 140 (University Building No.3a)	<p>Film show <u>Artur Ekert: A Model Kit</u></p> <ul style="list-style-type: none"> • Director: Karol Jalochowski • Country: Poland • Year: 2017 • Length: 45 minutes • Russian subtitles <p>In 1992 a young mathematician and physicist Artur Ekert invented a unique kind of quantum cryptography. His invention was a perfect cipher which also raised the issues of free will and choice. Despite the fact that his idea was studied very thoroughly, it still remains an innovation and as complicated as its</p>	<p>Institute of Architecture and Construction</p> <p>School of Medical Biology</p> <p>Institute of Natural Sciences</p>

	author is. The movie shows Artur Ekert in his usual working environment – a laboratory in Singapore.	
30.11.2017 9.45 Room 140 (University Building No.3a)	Film show <u>National Bird</u> <ul style="list-style-type: none"> • Director: Sonia Kennebeck • Country: CIIA • Year: 2015 • Length: 93 minutes <p>“This Is No Science Fiction,” declare advertisements of the Armed Forces of the United States. Indeed drone aircrafts have long ago become a reality. Being remotely controlled by people sitting miles away from hot zones they do the warfare in Afghanistan. They destroy not only enemies and civilians who happened to be in a wrong place at a wrong time, but also psychological health of their operators.</p>	Institute of Sport, Tourism and Service Institute of Law Institute of Social Sciences and Humanities
01.12.2017 9.45 Room 140 (University Building No.3a)	Film show <u>Life with Bacteria</u> <ul style="list-style-type: none"> • Directors: Stanislav Stavinov, Andrey Timoshenko • Country: Russia • Year: 2017 • Length: 52 minutes <p>Andrey Shestakov is the Head of the Laboratory of Microbial Biotechnology at Lomonosov Moscow State University. He spends summers with his team travelling around the country, from Caucasus to the White Sea, trying to find and test microbes beneficial for human health. Though the most intriguing detective story awaits him in Moscow, in the laboratory of Lomonosov Moscow State University.</p>	School of Medical Biology Institute of Sport, Tourism and Service
